

REBECA ERDMAN

Junior Front-End Developer / Software Engineer

PROFESSIONAL PROFILE

Software Engineering graduate currently focused on web development. I am looking for my first formal role in the technology sector where I can apply my solid theoretical foundation and the practical projects I have autonomously developed. Highly disciplined for remote work, adaptable, and eager to continuously learn, evolve, and immediately add value to a technical team.

PERSONAL INFORMATION

Location: Lisbon, Portugal

GitHub: <https://github.com/rebecafloriano>

SKILLS

- **Languages:** JS (ES6+), TypeScript, HTML5, CSS3
- **Frameworks:** React, Tailwind CSS
- **Tools:** Firebase, Git, GitHub
- **Core Practices:** DOM, APIs, Clean Code, Responsive Design

PROJECTS

- **Collab Clinic** <https://appointments-five-flame.vercel.app/> - Online booking system for desktop. Developed with React, TypeScript, Tailwind CSS, and Firebase Firestore to handle dynamic appointment scheduling and data persistent layers.
- **Tasks App** <https://tasks-app-blue.vercel.app/> - Workflow organizer focused on strict typing for data safety. Developed with React, TypeScript, and Tailwind CSS to structure reliable application states.
- **To-Do Application** <https://github.com/rebecafloriano/toDo-react> - Interactive list management focused on state control and component lifecycle. Developed with React, JavaScript, and CSS3.
